“TikTok tutorial”

Create a **small 30 sec** videoclip in which you give instructions to do something, you will frame it as a tiktok tutorial.

What you choose as your subject is your choice. It can be a make-up tutorial, a how-to-draw, how to bake an egg. Be sure to incorporate the imperative and linking words in your instruction.

Create a script first if that makes it easier, you can include this in your upload!
