## “The dish”

1. Go to this website to find a lot of food related vocabulary to help you talking about your dish: <https://www.enchantedlearning.com/wordlist/food.shtml>
2. Take a look at the short text below, which is written to give you an example of what you can say during your presentation.

*Today, I will be talking about the Italian dish called Lasagne. I am going to talk about the ingredients, what it tastes like and why it is so special for me. Take a look at this (imaginary) picture. This is what Lasagne looks like. The ingredients of Lasagne are beef, bell peppers, onions, tomatoes, cheese and pasta. This dish has different layers and tastes salty and sometimes spicy as well. This dish is very special for me because when I was a little boy, I always ate it when I was in Italy once a year. Thank you for your attention, are there any questions?*
